

Agenda Risk Working group - April 25th London, England, UK

Attention : Please feel inspired by the CQC document sent by Liz Owen on best performing indicators (see enclosure). We ask all participant in this risk working group:

- a. to make – if possible – an overview of the ‘best performing indicators’ in their own country;
- b. if no best performing indicators are known, please make an overview of most used or most effectively used indicators; or
- c. if no most used or most effectively used indicators are known in your country, please make an overview of indicators that - to your opinion- are potentially most effective or indicators that – to your opinion- could be used in your country as best performing indicators.

NB These documents will have no official status and will only be used as input for discussion in the working group)

Please send before APRIL 19th your BEST PERFORMING INDICATOR ideas to us (info@episonet.eu)
