Sustainable and responsible development

Creation and transfer of knowledge

# Patient safety and vigilance system

---

How we manage process?

PAULA STRADIŅA KLĪNISKĀ UNIVERSITĀTES SLIMNĪCA

# Components of the system

Patient safety

Hemovigilance

Vigilance of  
Medical Devices

Pharmacovigilance

Tissue, cell, organ  
vigilance

Health-related  
infection control  
system

# Basic principles

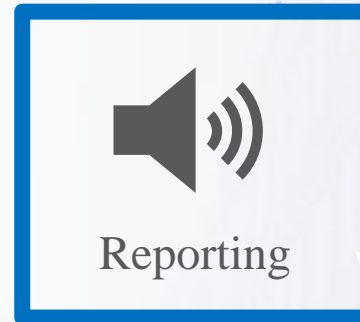

Leaders motivate and encourage system

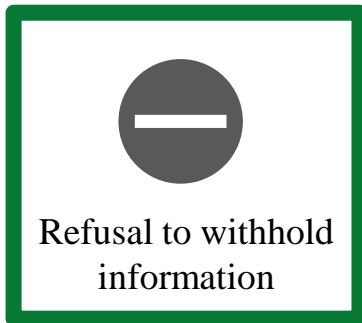

All information is used solely for improvement

Each employee's responsibility and professional ethics issue

Refusal to withhold information

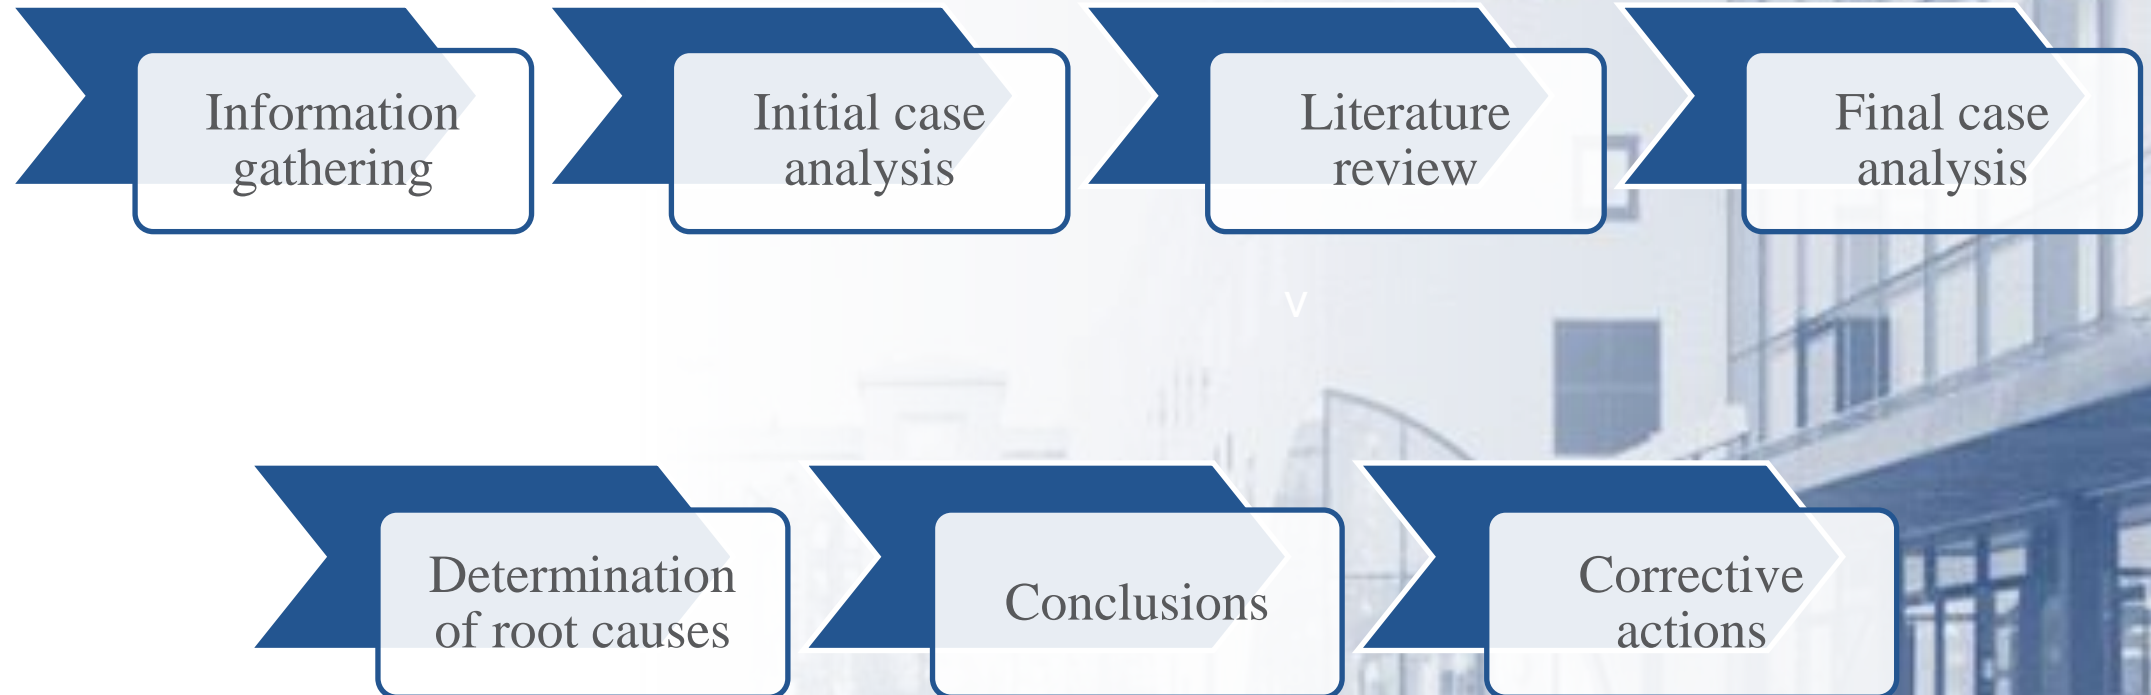

Hiding information is unacceptable and considered as professional irresponsibility.

The patient is our ally in improving safety.

# Patient safety case analysis

# Internal audit and patient safety and vigilance system

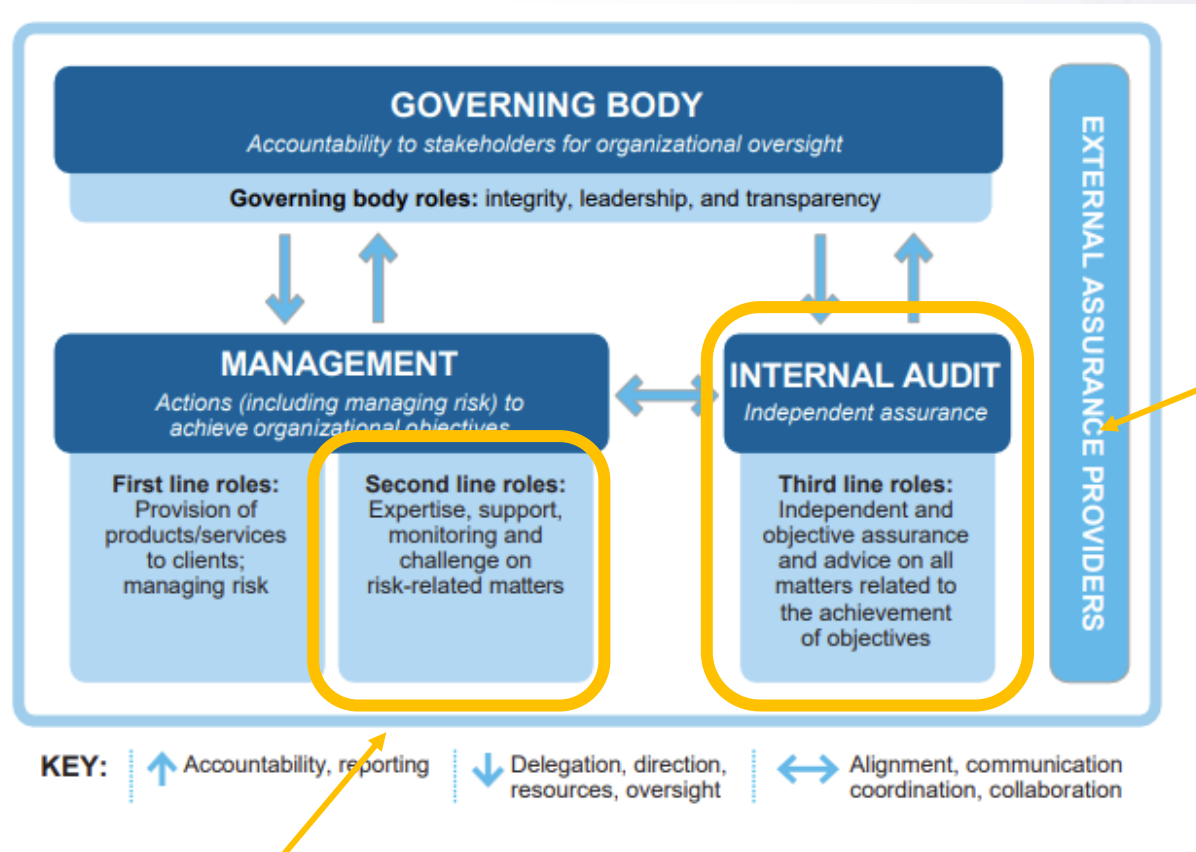

---

How un do we cooperate?
